

The Lord has given us the opportunity to **enjoy family** over Christmas with the Russell's and New Years with Leticia's family. **Amy is doing well with her pregnancy. ELIANA** (our future granddaughter) is starting to move around; she is well into the fifth month. Lord willing, her due date is April 26<sup>th</sup>. Nacho and Amy are now at Alfa Camp on the east coast. *Nacho* is director of the teens camp. We have **enjoyed Annie** a lot, she has met a lot of her friends and has spent time with them and will arrive back in Canada January 23<sup>rd</sup>. **After 11 years at the Christian school, Leticia finished** that stage of ministry with a beautiful farewell and words of appreciation. She is now preparing two missionary stories for a children camp in February. On the other hand, the elders from our home church in Montevideo have asked me to speak at the assembly retreat first days in March. **This will be part of our goodbye** that has already begun when we told the assembly in November of our move to Canada.

**We appreciate your prayers** as we continue in **the process of transition**. We have been able to spend time with the elders and missionaries of the 3 local churches that we have been directly involved with over the past 23 years of ministry, (church plant and revitalizing). It is very encouraging to see these assemblies growing, many children, youth and young families. Many of them involved in their local assemblies and in summer camp work. It is also good to see how the elders and missionaries have caught the vision to encourage brothers and sisters to be part of ministries that bless other assemblies and camp ministry. The work of the Lord continues in spite of who we are and where we are. He is the Head of the Church and He is in control. Leticia never forgot the words of an OM director from the Logos ship saying: **God is a global God, and wants to use your 100% wherever and whenever He wants.**
